

Wokingham Borough Liberal Democrats: Our Local Manifesto 2017/18

Education

The problems

- Insufficient funding provided for schools in Wokingham Borough
- A divisive national education policy which threatens continued excellence in education
- Threat to vocational subjects within our curriculums
- Lack of investment in school buildings

Our solutions

- Continue to put pressure on the government to increase funding for all our schools
- Lobby government to completely revamp national education policy.
- Support and develop lifelong learning for all - especially apprenticeships and Further Education Colleges
