

# Liberal Democrats in Wokingham Borough at a glance

## What we stand for in the 2016 local elections

**1** Spending your money wisely

**2** Standing up for you wherever you live

**3** Listening to residents

**4** Looking after the vulnerable

**5** Protecting green spaces

*In other words.....*

- 1. Spending your money wisely:** keeping a firm grip on the finances. No pet projects, no woolly contracts, no waste or duplication, investing sensibly for the long term future.
- 2. Standing up for you wherever you live:** a fair slice of spending for every community in the Borough; good access to services close to your home; thinking of the whole area, not just our own interests.
- 3. Listening to residents:** asking you what you think - and paying attention to the answers; picking up issues that matter to people and shaping what we do to match their needs.
- 4. Looking after the vulnerable:** putting first the needs of the youngest, the most frail, the poorest, those in the worst mental or physical health, and those marginalised by society.
- 5. Protecting green spaces:** space for children and adults to breathe; keeping our communities healthy; respecting the natural environment which helps make the Borough a great place to live.

### *The Lib Dem Vision for Wokingham Borough*

*the difference the Lib Dems would bring to the Borough Council*

If the Liberal Democrats were running Wokingham Borough, we would

- Focus on the whole Borough, not just one part of it
- Give the most help to those who need it the most
- Give residents a genuine chance to influence major decisions
- Work with others beyond the council to keep services up but costs down
- Take the environment seriously
